

E-field and Pitch Systematics Working Group

Agenda 31-Jan

- Pitch Correction update (measurement) – *J. Mott*
- Electric Field Correction Systematic Uncertainties (analytic) – *B. Morse*

Agenda 7-Feb

- Fast Rotation update (measurement) – *R. Carey*
- Gm2ringsim – test CERN method for extracting distribution of equilibrium radii from simulation data and explore dependencies – update – (simulation) *R. Fatemi*
- Bmad – spin tracking vs integration of $\beta \times \mathbf{E}$ and $(\tilde{\beta} \cdot \mathbf{B})\tilde{\beta}$ and quad nonlinearity – update – (simulation) *D. Rubin*
